Arab Traffic Week .. constructive cooperation and strategic partnership

«Traffic policeman for you and your service» ..A new slogan carried by the Arab Traffic Week 2017, which was successful, organized by the Association for the Prevention of Traffic Accidents, in cooperation with the Ministry of the Interior, in order to highlight what the traffic policeman is doing to instill traffic awareness among motorists and application Traffic and traffic rules, and spending long hours to provide services to the leaders of vehicles and users of roads and regulate traffic and traffic in a civilized manner with the various challenges facing him during the work, in addition to the development of creative energies and encourage new talent to find solutions to reduce traffic accidents through the Organizing training workshops, holding conferences and organizing conferences in cooperation with relevant associations, and working to address the traffic problems facing the community and awareness of the damage and the magnitude of accidents and traffic tragedies caused by them.

The Arab Traffic Week, which is held at the level of the Gulf States and the Arab States each year, targets the most important private initiatives, which work on traffic awareness and awareness of traffic awareness and safety issues through the creation of traffic awareness campaigns and activities to improve the behavior of road users of all age groups. Compliance with traffic safety rules, in addition to community awareness programs to activate the role of the family in the risks resulting from non-compliance with the Traffic and Traffic Law, and the dissemination of the event in the Gulf and Arab countries indicates the keenness of the wise leadership, the leadership of the Ministry of Interior, , On the safety of society in all its members and categories, in cooperation with strategic partners.

There is no doubt that the UAE media has played an important and effective role in traffic awareness because it is an integral part of enlightening the public of citizens and expatriates whose primary objective is to reduce and reduce traffic accidents resulting from excessive speed, wrong skipping and lack of traffic culture, which in turn overwhelms the community and costs too much.

Finally, I affirm that all of us must be real partners in the responsibility of reducing traffic accidents and working to create a safe environment free of accidents, and not only the Ministry of the Interior, which plays its role optimally, and this is achieved on the ground only through constructive cooperation and effective partnership between All segments of society.

Traffic Awareness And tangible positive results

There is no doubt that traffic accidents have become a major concern and concern for all members of society and have become one of the most important problems that drain the material resources and human resources and target societies in the most important elements of life, namely the human element, in addition to the social and psychological problems and huge material losses, which made it imperative for all of us to commit to and cooperate with the concerned parties to work to find solutions and proposals and put them into practice to reduce these incidents or at the very least to address the causes and mitigate the negative effects.

Although many campaigns that we provide to the community constantly but she reflected positively on the citizen and resident and yield positive results in the interests of society.

The interest of the State and its efforts and money towards the awareness of traffic to protect and maintain the human being constantly and our campaigns and constructive partnerships, whether inside or outside the country represented in the Gulf Traffic Week and the unified Arab Traffic Week, which call for all to reduce traffic accidents, «We constantly call for and constantly place them no matter what it cost us to promote a civilized society that builds the conscious Emirati man.

In spite of our continuous traffic awareness, I call on everyone to avoid all that distracts the driver from the road, leading to carelessness and neglect, such as talking by phone or writing text messages while driving. Driving has increased its ability to avoid risks. The serious consequences that a driver may have when driving, whether by using a mobile phone or any other, may hamper his focus and attention on the road, which may endanger his life and the lives of others at risk of traffic accidents. God forbid .

Councils of Interior Ministry of Ramadan

Positive thinking that meets expectations and achieves the UAE vision

Under the title «Generations resume civilization» .. His Highness Sheikh Saif bin Zayed Al Nahyan, Deputy Prime Minister and Minister of Interior, in «Twitter» on his account in the social networking site «Twitter», «The themes of the Council of the Interior Ministry this year, Will be discussed in response to the vision of the country's wise leadership and inspired by the words of His Highness Sheikh Mohammed bin Rashid Al Maktoum, Vice President, Prime Minister and Ruler of Dubai, Zayed Al Nahyan, Crown Prince of Abu Dhabi and Deputy Supreme Commander of the UAE Armed Forces «For future generations».

Inspired by the vision of Mohammed bin Rashid And Mohammed bin Zayed

«Inspired by the vision of Mr. Sheikh Mohammed bin Rashid and Sheikh Mohammed bin Zayed Al Nahyan, the 2017 Urban Councils will be the theme of» Generations to resume civilization », he said.

The Ministry of Interior said that the sixth session of the 2017 Ramadan Councils will be launched in the first week of Ramadan in the UAE under the slogan «Generations to resume civilization», including 42 councils, 28 of which are for men, 7 for women and

7 for youth. Eight topics are discussed on positive change, optimism and positive, the challenge of the impossible, the renewal of tender, the weaponization of science, sacrifice, tolerance, and time management.

Expand the circle of benefit

Brigadier Dr. Salah Obeid Al-Ghoul, supervisor of the Office of Culture of Respect for Law in the Ministry, said: «The Ramadan councils organized by the office will receive the attention of the police leadership by expanding the circle of benefit, from constructive dialogue and discussion of social issues, and to provide

cultural awareness to members of society in different sectors and segments. In achieving the vision and message of the Ministry of the Interior in the community partnership, in order to preserve the gains of security and stability ».

42 councils

He pointed out that it will be established councils this year in partnership with the Emirates Youth, and touched on the themes that will be discussed in the 42 council during the month of Ramadan, and include topics «positive change», deals with the march of the UAE to adopt a positive change approach to keep pace with the times and keep up with the logic of changing history, the challenges of the state's strategy and worked to confront the quality not quantity, to find armed with science generation, and is ready

to receive the flag and move them to resume civilization in their homeland, in what will be discussed «optimism and positive», which deals with the well-established infrastructure established by the wise leadership, and made the people of the Emirates live happily, and how we can ensure that generations after 50 years to live in safety and happiness? How to transform our ambitions and dreams into realistic goals we touch with our hands and we live in reality? What are the uae success equation, which is an essential component of happiness in it.

Impossible Challenge

The councils will also discuss the topic of «challenge of the impossible». He will discuss how the impossible is a point of view that is not adopted by the UAE, which has been able to use its natural and

human resources wisely and achieved the impossible. The councils will deal with the issue of «renewing the tender» which shows that there is no place in the UAE for non-performing people. The UAE is a great trust in the necks of its sons, its young men carrying flags, armed with science, renewed in their obedience, the custodians of the covenant and loyalty to the leadership and the state.

Reinforcement by science

The Councils will also discuss the issue of «arming with science» as the investment in human being is the real investment of the state that was interested in education with the establishment of the Union. The wise leadership ensured that the resumption of civilization in this country is only a generation armed with science capable of making history through the manufacture of its civilizational idea. There will be a discussion of the issue of «sacrifice», as the mothers of the martyrs form a model for a woman whose state has exceeded the stage of empowerment and has entered the stage of benefiting from their experience and wisdom in leadership.

Positive thinking value

The Ministry of the Interior discussed the theme of «optimism and positive» as the focus of the discussions. Among the eight topics scheduled for this year, speakers emphasized the value of positive thinking as a motivation to move forward and to look optimistic as a concept that enhances the achievement of strategic projects and supports the government's plans to achieve the vision of the UAE.

Four axes

The main topic in the councils is divided into four sub-axes that enrich the debate on the concept of «optimism and positive». The first part of the discussion focused on the distinction between dreams and goals. The second part was entitled «Oxygen of Happiness.» Participants reviewed real experiences from the UAE and the world, Has adopted optimism and positive as a way of life in the third section, while allocating the latest sections of the Council to come up with realistic recommendations to the Board, «Mohammed bin Rashid Smart» to take the necessary.

Promote the march of civilization state

The speakers at the councils agreed that positive thinking and optimistic consideration is the beginning of the path of success, taking into account the reasons and working to gather all the energies to strengthen the march of the civilized state, stressing that Emirati youth is a believer in their homeland and ready to make a great effort to raise it, Pointing to the UAE is full of cadres and national energies capable of creativity and innovation.

Strategies and plans

The speakers emphasized that the UAE has built its glory through the achievements of the eyes before the eyes of leaders who have passed the stage of wishful thinking and entered the stage of work and achievement, and discussed how parents established

a positive approach in thinking to be an approach to their children to contribute to the rise of their homeland, The future of the state depends on goals supported by strategies and plans that do not know a path to the impossible.

Generations resume civilization

The activities of the Councils of the Interior Ramadan sixth session kicked off with the patronage of HH Sheikh Saif Bin Zayed Al Nahyan, Deputy Prime Minister under the heading «generations» civilization and resume Office culture of respect for the law of the Ministry of the Interior in cooperation with the UAE Youth Council at the State level, and managed by local media in coordination with security information management Department of the Interior Ministry's security reference.

A well-established UAE infrastructure

The Abu Dhabi Women's Interior Council, hosted by Afaf Al Zaabi, has

recommended studying the UAE's current achievements and taking advantage of the UAE's established infrastructure and building on it to serve future generations and sustain the foundations of happiness that we now enjoy under wise leadership.

Participants also called for positive and happy to be the foundation of everyday life, and that optimism and hope is the drive for a prosperous, resolute future.

The importance of thinking And act positively

A number of speakers in the council, led by Saad Al-Manhali, stressed the importance of thinking, acting positively and applying it in all walks of life, and spreading this culture to be a way of life that contributes to achieving the country's strategic goals.

The speakers said that positive skills such as the other skills acquired by learning and continuous development, and depends on the way of thinking and behavior and both are subject to change and development, that is, the positive is only a combination of the way the person thinks and how he behaves.

Maria Al-Hatali of the General Authority for Islamic Affairs said that our tolerant Islamic faith urges hard work and optimism in life, and adherence to positive as a working method. The UAE is exerting efforts in this regard and represents a guiding light for others.

Positive family role

Mona Ismail Murad, Head of the Department of Assistance in the Judiciary Department, talked about the positive role of the family in the proper education of its children in a manner that contributes positively to the education of a productive individual of its society. Fatima Adnan, an educational researcher and educator, spoke about the positive as the basis of unity and how the UAE builds its glory through achievements in front of the eyes.

Dr. Mona Al Mansouri, Director of Scholarship Department at the Abu Dhabi Education Council, referred to the late Sheikh Zayed Bin Sultan Al Nahyan saying: «There is no use in money if it does not make fun of the people» The highest among the countries of the world, and determine the priorities of the state by providing satisfaction and happiness to everyone on this land ».

Fatima Al Mansouri from the Sultan Bin Zayed Center for Culture and Information said: «The United Arab Emirates in the past, present and developments is the result of an effort and hard work of optimism. Najia Al Kutbi of the same center focused on the role of the family in developing the individual. The life of each individual has provided an explanation of the meaning of the positive and its concept.

Serious work and responsibility

Aisha Khalfan Al-Rumaithi of the Emirates Center for Strategic Studies and Research said that true citizenship is achieved through hard work and social responsibility. The future of nations starts with schools and young people are given the basic skills of leadership, positive and sincere work. Dr. Zubaydah Jassim from the Ministry of Interior pointed to the role of institutions in refining positive personality Such as the Ministry of Interior, and set aside its experience of success through faith in optimism and positive.

Belief in self-abilities

They stressed that a person remains trapped in negative thoughts if he continues to distrust her abilities, which has a negative impact on the environment that surrounds him and that he lives within. If a person desires a beneficial outcome, he must be careful in his thinking, which must be positive and sustainable.

Young communities called for the lack of control over their thinking and belief in their own abilities, and to prove themselves in the realization of the impossible, asserting that science, self-confidence and strong will are the guarantors of dreams and progress in development.

Consolidation of positive

The members of the Women's Interior Council in Dubai, hosted by Mahra Velknaz, recommended reading the positive thought and concept of the wise

leadership of the UAE, which exceeded what the governments of the world have already assumed and thought with generations' happiness after tens of decades.

We also recommend the work of «Caravan of Positive» to spread its meaning and plan for the future and to include positive, customs and traditions in the curriculum in a different way and creative ways suitable for the new generation with the allocation of a daily invitation to parents in schools, universities and government departments.

Draw a better future

A number of speakers at the council, which was moderated by Shaima Al-Shammari, confirmed that the UAE has provided its youth with positive and positive thinking and encouraged them in initiatives that concern them. The concept of optimism in young people's thinking has been established instead of frustration and negative thinking. The

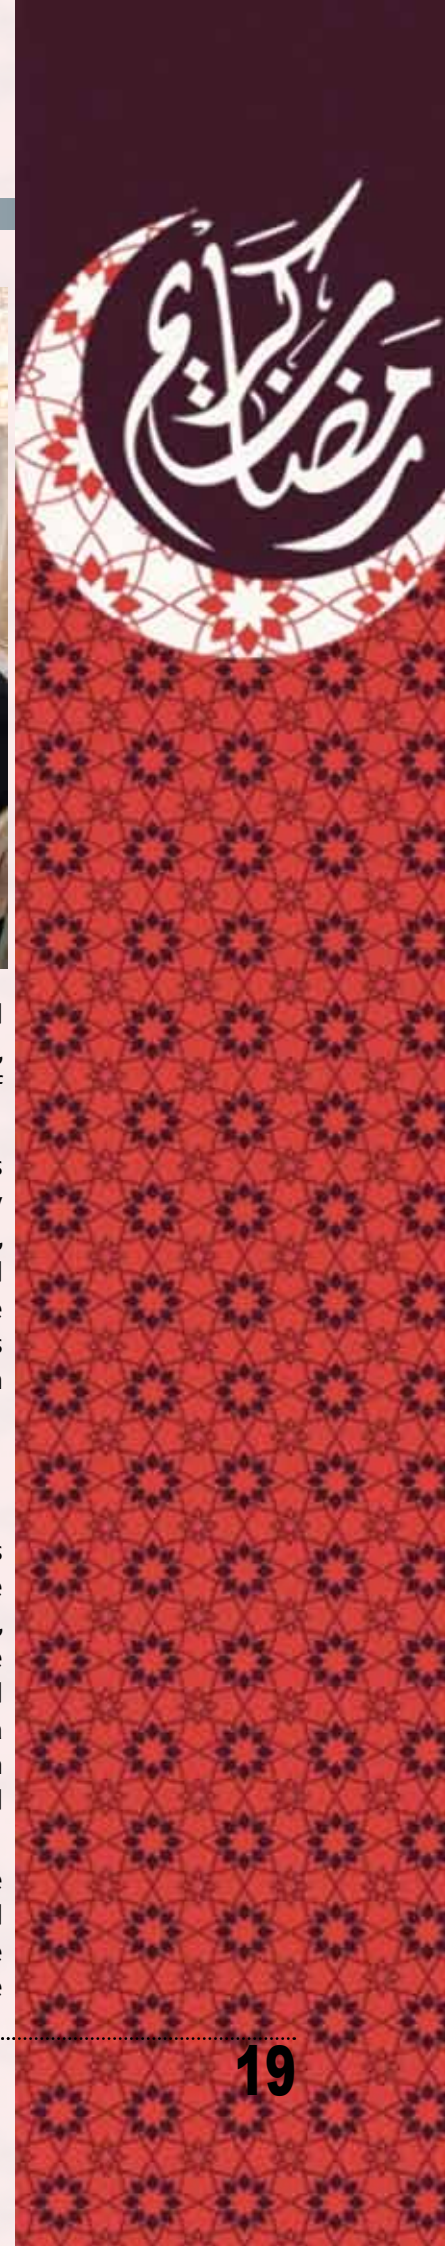

energies of its youth have been mobilized to shape a better future based on growth, prosperity and more. of the successes of its people.

The speakers said that positive skills such as the other skills acquired by learning and continuous development, and depends on the way of thinking and behavior and both are subject to change and development, that is, the positive is only a combination of the way the person thinks and how he behaves.

Positive and sustainable

They stressed that a person remains trapped in negative thoughts if he continues to distrust her abilities, which has a negative impact on the environment that surrounds him and that he lives within. If a person desires a beneficial outcome, he must be careful in his thinking, which must be positive and sustainable.

Young communities called for the lack of control over their thinking and belief in their own abilities, and to prove themselves in the realization of the

impossible, asserting that science, self-confidence and strong will are the guarantors of dreams and progress in development.

Youth is full of hope and optimism

The Ministry of the Interior, in cooperation with the Emirates Council for Youth, organized a Youth Council in Dubai in the Museum of the Union, which is witnessing the launch of a country that has achieved the impossible with the wisdom of its leadership, which has provided the material resources for building, development and happiness for its people.

Reflections on happiness and positive

The participants in the board, led by Issa Al Kaabi, recommended the best use of the ideas in the book of His Highness Sheikh Mohammed bin Rashid Al

Maktoum, Vice President and Prime Minister of the UAE and Ruler of Dubai, «Reflections on Happiness and Positiveness» «Positive thinking is a way of thinking, happiness is a way of life, not everything you have or what you do is what makes you happy, but how you think so.» How did the positive outlook enable the UAE to overcome difficult and qualitative challenges in its construction?

Preparation of positive approach

They also recommended the development of a positive curriculum and its adoption as a curriculum in the Ministry of Education and the preparation of a curriculum for the behavioral trends of individuals and the use of technology in the design of electronic programs (games), which includes a positive focus of the target group of young people and the production

of social programs for children talking about the positive way of dialogue easy to accept the child and then Transformation.

Turn the desert into a green paradise

Brigadier General Dr. Adel Al Suwaidi, Director General of Dubai Police, spoke about the role of optimism and positive in transforming the UAE from arid desert to green paradise and the role of the late Sheikh Zayed bin Sultan in this matter. He did not despair when experts told him about the difficulty of agriculture in the state The UAE because of its desert nature, where he insisted on agriculture because of his forward thinking and his positive outlook for the possibility of conquering the impossible.

Positive thinking approach

Col. Ali Khalfan Al Mansouri, Dubai Police, explained how parents instilled a positive approach in thinking to be an approach to their children in managing their country, while Lt. Col. Abdulrahman Sharaf of the Khalifa Program to Empower Students «I appreciate» the book of Sheikh Mohammed bin Rashid reflections on happiness and positive impact. And the importance of teaching this book as an approved approach in the Ministry of Education because of its impact on the soul and contribute to sharpen the motivation and positive motivation for young people who are considered the energy of change in all peoples.

Moza Ali Al Hamli said the role of the late Sheikh Zayed Bin Sultan in establishing happiness as a priority and the government's continuous efforts to delight the people of the UAE by creating the first woman minister of happiness and the National Plan of Happiness, thus contributing to the happiness of the UAE people.

Read the data actually

A number of speakers said that the UAE has established a concept of realistic thinking by reading the facts of reality to build on it in the form of plans and strategies away from extremism and extremism in thinking, and has implemented pioneering initiatives that are commensurate with the size of the challenges and did not inspire any mirage.

They stressed that the realization of wishes and dreams comes only through the design of forward-looking plans for our reality, realistic and authentic with lofty objectives, understanding the rules and developments of the current world, taking advantage of modernity and modern technologies to serve its aspirations and strengthen its advanced position.

Leadership support for UAE youth

The participants discussed a number of productive and useful ideas during their discussions on «optimism and positive» in the councils of the Ministry of the Interior. They pointed to supporting the wise leadership of UAE youth and listening to their views and putting their ideas into practice. They hold leadership positions and positions that offer their unique experiences in positive thinking and how to believe in themselves
